

Taufeeq Ahmad

Mobile Developer

0313-1958812 — taufeeqahmad.cs@gmail.com — Islamabad, Pakistan

Profile Summary

Experienced Flutter Developer specializing in cross-platform mobile app development for iOS and Android. Passionate about building high-performance and visually appealing applications with seamless user experiences. Proficient in API integration, Firebase backend solutions, and modern state management approaches such as GetX and Provider. Strong focus on clean architecture, scalable solutions, and modern UI/UX principles. Successfully published an independent app on the Google Play Store.

Technical Skills

- **Mobile Development:** Flutter, Dart, Cross-platform Development
- **State Management:** GetX, Provider, Bloc
- **Backend Services:** Firebase, Supabase, REST API Integration
- **Databases:** Hive, SharedPreferences, GetStorage
- **Tools & Design:** Git, Figma, UI/UX Implementation
- **Programming Concepts:** Clean Architecture, MVC, MVVM, DSA

Experience

Flutter Development Intern

Jan 2026 – June 2026

PSEB Internship, Swabi

- Trained under experienced Flutter mentors in a professional engineering environment, gaining hands-on exposure to industry-grade development practices.
- Collaborated with industry professionals on real-world projects, contributing to feature development and UI implementation under close guidance.
- Strengthened understanding of clean code principles, team workflows, and agile collaboration through day-to-day work alongside senior developers.
- Translated real client requirements into functional Flutter screens, bridging the gap between design expectations and working mobile solutions.

Flutter Developer

July 2025 – Sept 2025

ExpandMore.pk

- Developed a cross-platform e-commerce mobile application using Flutter.
- Designed intuitive UI/UX interfaces for both Android and iOS platforms.
- Integrated Firebase services for backend data management.
- Implemented REST API communication between application and server.
- Optimized application performance for a smooth user experience.

Projects

Spendora – Personal Expense Tracker

Published on Google Play Store

- Independently designed and developed a premium personal finance app using Flutter, published on the Google Play Store.
- Implemented local data persistence using Hive for fast, offline-first expense storage and retrieval.
- Built reactive state management architecture using GetX and Provider for smooth UI performance.
- Utilized SharedPreferences for lightweight user settings and preferences storage.
- Delivered a polished, intuitive UI/UX focused on clean design and seamless user experience.

E-commerce App (Firebase)

- Developed a full-stack shopping application with backend integration.
- Implemented product browsing, cart management, and order processing.

Social Media Posting App (Firebase)

- Built a content-sharing platform using Firebase services.
- Implemented real-time data updates and user interactions.

Dairy Farm Automation System (Firebase)

- Developed a complete mobile application to automate dairy farm operations, including animal record management, milk production tracking, and inventory control using Firebase backend services.
- Implemented real-time data synchronization, user authentication, and efficient data handling to improve productivity, reduce manual work, and enable better decision-making.

Book Selling App (Firebase)

- Developed an online marketplace application for book selling.
- Integrated Firebase authentication and database features.

Chat Application (Firebase)

- Implemented real-time messaging using Firebase Firestore.
- Designed responsive chat UI with message synchronization.

Weather App

- Developed a live weather forecast application using external APIs.
- Displayed dynamic weather information with modern UI.

Student Digital Entry System

- Built an academic management portal for student record handling.
- Implemented data entry and management functionality.

Education

International Islamic University Islamabad

Bachelor's in Computer Science

Aug 2020 – July 2024

Quaid-e-Azam College Swabi

FSc in Engineering

Mar 2018 – Mar 2020

Additional Information

- **Languages:** English, Urdu, Pashto
- **Certifications:** Flutter and Dart Certification by IBM
